Information Systems student with experience in software development, web and mobile application development, and database systems. Skilled in React.js, React Native, JavaScript, Node.js, SQL, REST API, Git, UI/UX, and responsive design through academic and project-based development. Experienced in application development, debugging, database management, and technical mentoring as a Laboratory Assistant, with leadership experience as Head of Academic Division. Proactive and analytical technology enthusiast with strong problem-solving skills, seeking an IT Internship opportunity in Application Development to contribute to software solutions and grow in a professional technology environment.

EDUCATION

Universitas Pembangunan Nasional “Veteran” Jakarta	2024 - Present
- Associate Degree in Information System GPA: 3.92 / 4.00 - Relevant Coursework : Database Systems, Web Programming	

PROJECTS EXPERIENCE

BiteYo Food Review Platform	Mar 2026 - Jun 2026
- Developed Landing, Explore, Search, Filter, and Authentication pages using React.js and Tailwind CSS. - Implemented dynamic search and filtering features integrated with backend APIs to improve restaurant discovery. - Designed UI/UX in Figma and translated designs into responsive, consistent frontend interfaces.	
CINIX Cinema Ticket Booking Platform	Oct 2025 - Nov 2025
- Developed a responsive cinema ticket booking platform using React.js and Tailwind CSS to enable seamless ticket reservations. - Implemented showtime browsing, seat booking, and secure authentication integrated with the backend system. - Designed UI/UX in Figma and translated designs into responsive, user-friendly frontend interfaces.	
News App Mobile News Aggregator	Apr 2026
- Developed a mobile news application using React Native and Expo with category-based browsing and real-time search. - Integrated News API using Axios with infinite scroll and pull-to-refresh for seamless content delivery. - Implemented article bookmarking with AsyncStorage and offline article viewing using WebView and cached data.	
THR Manager App Mobile Finance Tracker	Mar 2026
- Developed a mobile finance tracking application using React Native and Expo to monitor THR cash flow. - Implemented real-time balance tracking, transaction history, and filtering to improve financial management. - Built category-based spending statistics and local data storage using AsyncStorage for efficient expense tracking.	
Pre Movie Movie Soundtrack Player	Feb 2026
- Developed an Android movie soundtrack player using Java and Android Studio for seamless music streaming. - Implemented favorites and background audio playback to enhance the listening experience. - Optimized audio playback to continue when the application is closed, ensuring uninterrupted music streaming.	

OTHER EXPERIENCES

Laboratory Assistant Database Systems	Feb 2026 - Jun 2026
- Guided 30+ students in relational database concepts and PostgreSQL-based SQL practice during laboratory sessions. - Assisted students in debugging SQL queries and resolving database-related issues through hands-on technical support. - Facilitated practical learning activities to strengthen students' understanding of database systems and SQL implementation.	

ORGANIZATION EXPERIENCE

Head of Academic Division Student Executive Board (BEM) - Faculty of Computer Science UPNVJ	Jan 2026 - Present
- Led and mentored 3 staff in delivering faculty academic programs. - Managed the academic roadmap and coordinated initiatives to strengthen student engagement.	
Academic Staff Student Executive Board (BEM) - Faculty of Computer Science UPNVJ	Jan 2025 - Dec 2025
- Coordinated faculty academic initiatives to enhance student engagement and skill development. - Liaised with external stakeholders and managed technical and administrative operations for faculty events.	

CERTIFICATION

- React JS Bootcamp | Web Programming UNPAS Course (WPU) | 2026 [\[Link\]](#)
- Information Technology Specialist: Data Analytics | Certiport | 2026 [\[Link\]](#)
- Data Classification and Summarization | IBM SkillsBuild x Hacktiv8 | 2026 [\[Link\]](#)

PERSONAL SKILLS

- Technical competencies:** Frontend development, mobile development, web development, responsive design, UI/UX design, database management, SQL, REST API, CRUD development, object-oriented programming, version control, debugging, data analytics
- Non-technical competencies:** Problem solving, analytical thinking, communication, teamwork, leadership, project management,
- Software / tools:** React.js, React Native, Node.js, Express.js, JavaScript, Java, HTML, Tailwind CSS, PostgreSQL, MySQL, Git, GitHub, Figma, Android Studio, Expo, Axios, AsyncStorage, Visual Studio Code
- Languages:** Bahasa Indonesia (Native), English (Intermediate)
