

Zulfikar Hasan

Front-End Developer

+6289604039535 | zulfikarhasan118@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#) | Jakarta, Indonesia

Profile

D3 Information Systems student with a focus on Front-End Web Development, experienced in building responsive web applications using React.js and Tailwind CSS. Skilled in UI/UX design with Figma and translating design concepts into functional, user-friendly interfaces

Education

Universitas Pembangunan Nasional “Veteran” Jakarta, Computer Science August 2024 - Present

Associate Degree in Information System

- GPA : 3.92 / 4.00
- Relevant Coursework : Database Systems, Web Programming

Work Experience

Laboratory Assistant – Database Systems February 2026 - June 2026

- Guided 30+ students in relational database concepts and hands-on SQL practice using PostgreSQL.
- Provided technical support during lab sessions to help students debug queries and resolve errors.

Organization Experience

Student Executive Board (BEM) – Faculty of Computer Science UPNVJ

Head of Academic Division January 2026 - Present

- Managed and mentored 3 staff members in developing and executing academic programs for the faculty.
- Oversaw division roadmap and coordinated cross-functional efforts to drive faculty academic engagement.

Academic Staff January 2025 - December 2025

- Coordinated academic initiatives within the faculty to drive student engagement and skill enhancement.
- Liaised with external stakeholders and oversaw technical and administrative operations across faculty-level events.

Projects

BiteYo - Food Review Platform

Mar 2026 - June 2026

- Developed the frontend for key pages including Landing, Explore, Search, and Filter, as well as Authentication flows. Implemented dynamic filter-based search integrated with backend API logic, enabling users to discover restaurants based on multiple criteria.
- Role: UI/UX Designer & Frontend Developer
- Tools: React.js, Tailwind CSS, Figma

CINIX - Cinema Ticket Booking Platform

October 2025 - November 2025

- Built a responsive web-based cinema ticketing system allowing users to browse showtimes and book seats, integrated with secure authentication and a transaction management backend
- Role: UI/UX Designer & Frontend Developer
- Tools : React.js, Tailwind CSS, Figma

News App – Mobile News Aggregator

Apr 2026

- Developed a mobile news app with category-based browsing, real-time search with debounce, and article bookmarking using AsyncStorage for offline access.
- Integrated external news API via Axios with infinite scroll and pull-to-refresh, displaying full articles through WebView with cached data support for offline mode.
- Tools: React Native, Expo, AsyncStorage, Axios

THR Manager App – Mobile Finance Tracker

Mar 2026

- Built a mobile app for tracking THR (holiday allowance) cash flow, featuring real-time balance monitoring, transaction history with filtering, and spending statistics by category.
- Tools: React Native, Expo, AsyncStorage

Pre Movie – Movie Soundtrack Player

Feb 2026

- Built an Android music player app for streaming movie soundtracks, featuring a favorites system and background audio playback that persists when the app is closed.
- Tools: Android Studio, Java

Certification

ReactJS Bootcamp - WPU Course

Information Technology Specialist: Data Analytics - Certiport

Data Classification and Summarization - IBM Skills Build X Hacktiv8

Skills

- Web Development (HTML, Tailwind CSS, React.js, Express.js, Node.js, Git, GitHub)
- Mobile Development (React Native, Java, Android Studio)
- Database Management (PostgreSQL, MySQL)
- UI/UX Design (Figma)
